FLORIDA DEPARTMENT OF STATE
Sandra B. Mortham
Secretary of State

8 December 1997

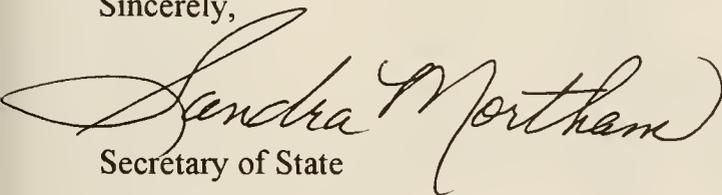

Dear Youth Librarian,

The Florida Department of State is pleased that once again the State Library of Florida is able to bring the children of Florida the Florida Library Youth Program. This long-running program remains vigorous and progressive through your efforts and support.

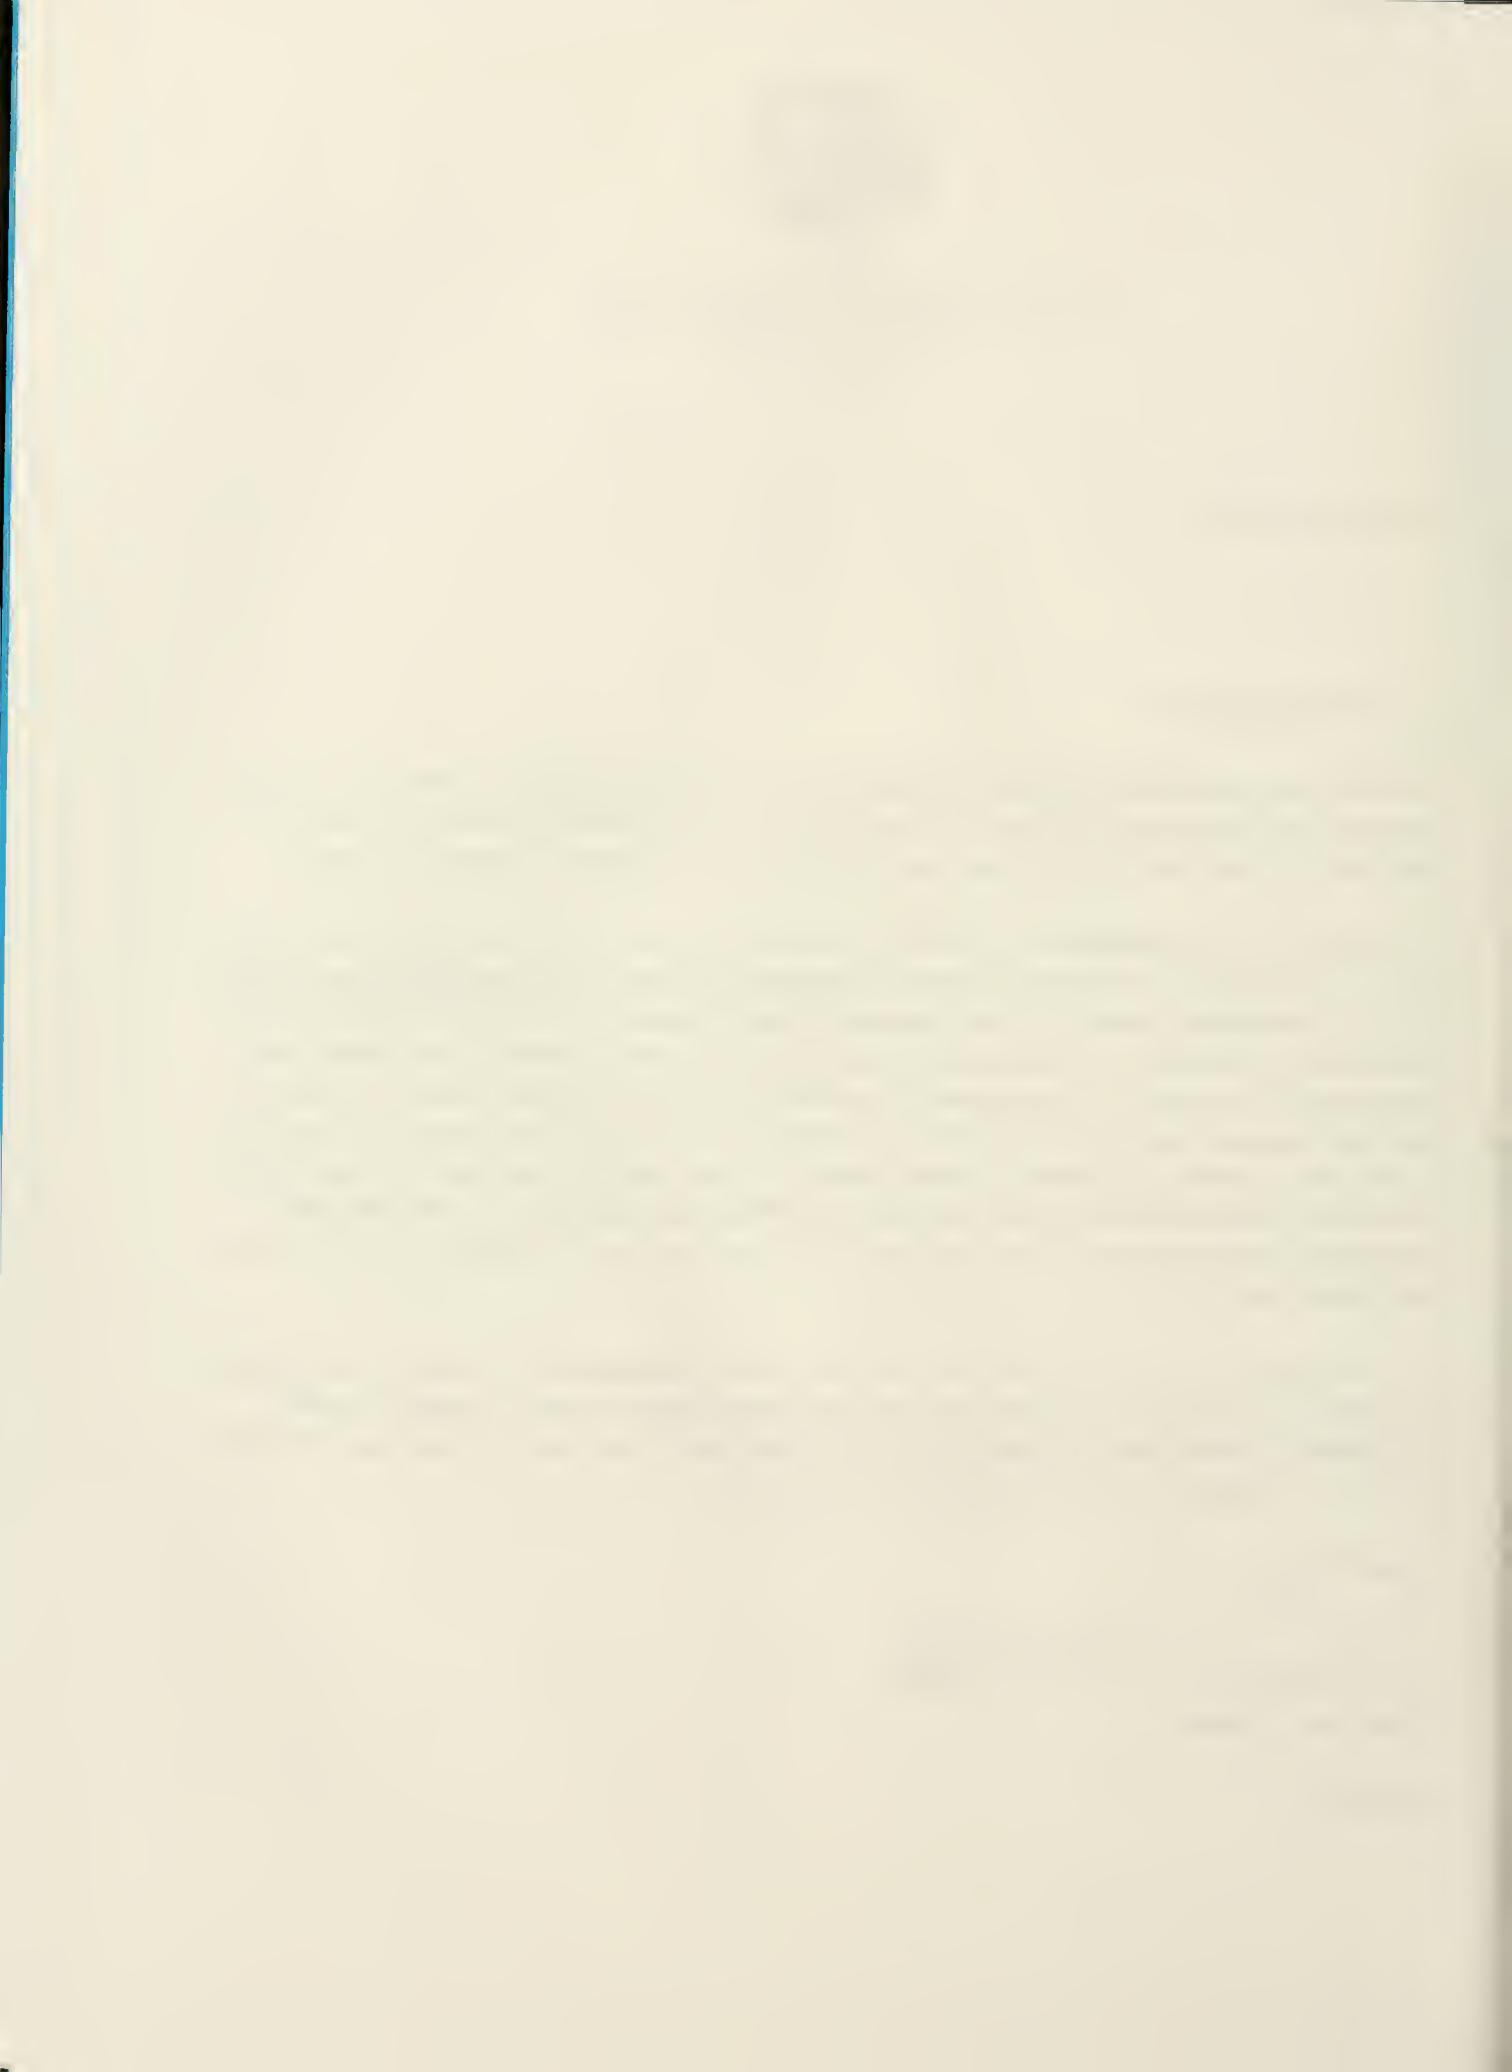

I am aware of the important role you play in developing a love of reading and books in the young people of our state. We can accomplish this goal, along with our more urgent goal of promoting literacy by your continued involvement in the Florida Library Youth Program. If I can help call attention to your local program by visiting your library and participating in your FLYP programs in an effort to inform your community how these services enhance family literacy, please contact Carole Fiore, Youth Services Consultant at the State Library of Florida. She will work with my staff to coordinate as many visits to libraries during the spring and summer of 1998 as can be arranged. Without your dedication, this program, funded by the Library Services and Technology Act, would not be the success it is.

As we continue our second quarter century of service through this program, I would like to take this opportunity to thank you for your fine efforts to provide a varied, quality program of library service to the youth of the Sunshine State and to encourage you and your staff to participate fully in this year's program.

Sincerely,

Secretary of State

INTRODUCTION

Welcome to the 1998 Florida Library Youth Program. This Program, funded by the federal Library Services and Technology Act grant funds, is an extension of the highly successful and long running Florida Summer Library Program. Every year as we evaluate the past year's program, we look towards the future and seek ways to make this Program responsive to the trends and developments that public libraries face in serving youth.

For the past several years, we have been hearing that youth librarians in many areas of the state were trying to respond to the need to provide programs for school-age children at times other than the traditional summer vacation. Many counties have been experimenting with year-round schools and public libraries need to be able to provide programs similar to the successful Summer Library Program at other times of the year. Thus, the idea of the Florida Library Youth Program was born.

While this is not really new, the Florida Library Youth Program, by removing the word "Summer" from the promotional materials, provides local libraries with the added flexibility of being able to use the promotional materials and program ideas year round.

Our theme this year, *Exploration Explosion!*, focuses on the here and now and also travels into the past and future. Jana Fine and Marlene Mitchell, both youth service librarians with the Clearwater Public Library, with the assistance of the Florida Library Youth Program Planning Committee, have compiled this manual and will be presenting the staff development and training workshops that are an integral part of the Program,. They have created a flexible program that will allow each library to deliver the appropriate level of service for their patrons and clients.

BASIC PHILOSOPHY - Our basic philosophy and goals remain the same as in previous years. The goal of the Florida Library Youth Program is "to encourage children in Florida to read and use library resources during the school vacation times to meet their learning and recreational needs." We want children to learn about the library and the services it offers, to understand that there is a wealth of information and fun waiting for them in a friendly, encouraging atmosphere. Especially during school breaks and vacation periods, we want the experience to be relaxing, pleasurable, and free of stress. For that reason, we downplay numbers of books read. "How many" is not nearly as important as "how good." No prizes should be given for number of books read **unless** it is an agreed upon contract between child and librarian. We want children to share books and stories in the company of others

and discover the satisfaction of reading alone, or being read to. That's why we encourage local libraries to have group programs and individual guidance.

The ability to read is one of the most important factors leading to success in life. Reading is the foundation for all other learning. Reading skills enable children to negotiate and travel the information superhighway and provide them with the ability to access information in various formats. While the Florida Library Youth Program does not provide formal reading instruction, it does provide numerous opportunities for children and their families to discover the joy of reading. Library programs provide language and literature experiences that expand children's knowledge about the world as well as providing those experience that enhance literacy.

Even though we do not encourage competition between individual children in the number of books read, this year we are encouraging libraries to track the amount of time children read or are read to. Research has shown that children who read at least twenty minutes a day, five times each week, not only maintain their reading skills over the summer, but can actually improve their reading.

Last year, for the first time we set a statewide reading goal of 500,000 hours read during the months of June, July, and August. While only about half the participating libraries reported the number of hours read by children, teens, and the adults in their communities, we surpassed our goal. Children reported reading almost 358,000 hours during the summer of 1997; total time reported was over 662,000 hours.

Again in 1998, we are setting a statewide goal of 500,000 hours read by children and their families participating in the Florida Library Youth Program. Track time spent reading by children, time parents read to their children, time you read to children at storytimes, and so on. Due to differences in individual children's abilities and learning styles, count time spent viewing videos borrowed from the library collection, time spent reading magazines, or time spent listening to books on tape. Invite community celebrities to a "read-in" at your library. Pair senior volunteers with children as reading partners.

We hope that you and your community will set a goal that will help us achieve our statewide goal of 500,000 hours read by children during the summer. Erect a clock to help you keep track of the number of hours that your community is reading – or design a thermometer that you fill in as you and your readers contribute time to this community effort.

AGE AND ABILITY LEVELS - The Florida Library Youth Program is designed primarily for elementary school age children. Its purpose is to encourage library use for leisure and continued learning during the weeks that school is not in session. The Program tends to be recreational rather than educational in nature. This is more a matter of emphasis rather than a true difference in content. The Florida Library Youth Program allows children the freedom and time to follow personal interests and inclinations that may or may not be found in the school curriculum.

Although we realize that toddlers and preschoolers also have library needs, the primary thrust of the Florida Library Youth Program is not for that age group. The majority of libraries completing the evaluation form for the 1996 program agreed that elementary school age children are the age group that they want this program to serve. The philosophy of targeting school age children has been readopted by the FLYP Planning Committee when it met to plan this 1998 Program. This does not mean, however, that preschool storytimes must be eliminated, only that the suggestions for programs, bibliographies, and materials supplies through the Florida Library Youth Program will be aimed at elementary school age children. Nor does this mean that young adolescents and teens are not permitted to participate. It does mean, however, that libraries are encouraged to adapt the ideas and materials provided through the Florida Library Youth Program for both their younger and older children -- if that is appropriate for your community. For ideas on how to include teens as volunteers in your program see the section "Teen Volunteers" in the 1996 FLYP Manual, *Rhythm and Books: Feel the Beat*.

All children, regardless of ability or disability, are encouraged to participate in the Florida Library Youth Program at their local public library. Libraries need to offer adaptations, such as sign language interpreters, assistive listening devices, or visual adaptations to be in compliance with the Americans with Disabilities Act. Local libraries are encouraged to request deposit collections through the Bureau of Braille and Talking Book Services for children with limited vision or physical disabilities that prevent them from using traditional print materials. The combined bibliography/ index notes which books are available through the Regional Library and in what format (Braille or talking book). Contact the Regional Library at (904) 239-6000 or 1-800-226-6075. For detailed information on working with children with disabilities, see the 1992 Summer Library Program Manual. Additional information about working with children with disabilities can be found in *Programming for Serving Children with Special Needs* (American Library Association, 1994), an Association for Library Service to Children Program Support Publication.

MATERIALS AND INCENTIVES - Art for this year's full color poster and bookmark has been designed by children's book illustrator and Florida resident Linda Shute. Our mascot character again this year is "Flyp," a Florida panther. The art has been adapted for our logo sheets, coloring sheet, and the reproducible reading logs. This year we are again supplying a reproducible "Read To Me" log.

Posters - Space is provided for you to include additional information. If you need more space than provided, mount the poster on a larger sheet of poster board or foam core.

Bookmarks - These are your first form of publicity. Use them freely during your school and community visits.

Repro Pack - While not every library uses every item in the repro pack, we try to provide a variety of materials so that there is something for everyone. Use what you can and adapt the rest for your individual library's needs.

This year the repro pack will include 10 pages:

- logo sheet
- doorknob hanger (two styles)
- reading log (2 sheets – cover and inside)
- read to me log (2 sheets – cover and inside)
- certificate
- coloring sheet
- dot to dot game sheet
- membership card

The logo sheet contains line drawings of Flyp adapted from the poster and the bookmark as well as the program slogan in several type sizes. Use the logo sheet to create program fliers for your series of programs. Add the mascot to your press releases to garner attention.

Since it met with such success last year, the repro pack this year will again include a doorknob hanger. If possible, reproduce this on card stock. Have children use crayons, markers, or colored pencils to brighten these "Exploring the world of books! Do not disturb" signs before they are cut out. To make these privacy signs last longer, have clear contact available so your young readers may laminate the doorknob hangers back-to-back after they have decorated them. Encourage children

(and their care-givers) to set aside a special place and time each day to read. Please remind them to report the number of hours they read.

Two sheets in the repro pack have been designed to be run back to back to create a two-sided reading log. There is a cover sheet with the program logo and space for the reader to place his or her name on the front. The inside provides places which will allow the reader to track books read and library activities in which they have participated.

In addition to the reading log, there again will be a "Read To Me" Log. This log will be very similar to the reading log, except that it will be somewhat simplified. The outside cover has places for both the child's name and the names of the reading partners. The inside will be wide lines which will allow the reader/listener to track the books that someone has read to him or her, or that he or she has read independently. The back cover has an activity for the child and reading partner to work on together. Time spent reading independently or listening to others read should be counted and included in your count towards the community reading goal.

No matter which log you use, customize it for the children in your service area. Interchange the insides. Number the lines if you desire. Add categories if you wish. Include other library and literacy related activities to expand the horizons of your participants.

Rather than tracking the number of books read, we are encouraging libraries to have their readers (and listeners) track amount of time spent reading (and being read to). By tracking time spent reading rather than pages read, we level the playing field. The poor reader who struggles to read ten pages in one hour can earn the same recognition as the good reader who can accomplish more in the same amount of time and with the same amount of effort. Please establish a community wide goal of how many hours the community will read during the summer and report this figure on your annual evaluation of the Florida Library Youth Program.

Incentives - This year, libraries will again be receiving reading incentives. At the time this manual is being prepared, we are still not sure what exactly they will be. Depending on costs, they will either be colorful pencils or stickers.

The Florida Library Youth Program does **not** give prizes to children in competition with each other to see who can read the most books. It is not a competitive program in which one child is the winner and all others are losers.

Rather, in as many ways as possible, local libraries need to devise methods to make every child feel a sense of achievement and pride in accomplishment. This is where we walk the thin line between incentives and competition. Rewards for completing individual contracts, rewards and recognition for number of pages read or number of minutes read, for coming to specific programs, or for teamwork should be handled in such a way that there are no losers. Exactly how this is done varies with the children you serve and requires judgment on the part of the librarian.

Evaluation Form - Please read the Evaluation Form, found elsewhere in this manual, now, so you will know what figures and records you need to keep. We have kept the same basic form used during the past several years. Program attendance figures are important because it is a concrete measure of the impact of the Florida Library Youth Program. Your comments on the theme and materials are used in planning future programs. Please remember we have added one new data element: number of hours read in the community.

Please make certain that every outlet presenting FLYP related programs returned a completed evaluation form to the State Library of Florida by September 1, 1998.

READING RAINBOW and STORYTIME - Local libraries are again encouraged to form partnerships with their local PBS outlet to promote *Reading Rainbow*, the highly acclaimed educational television program, and *Storytime*, both aired on local Public Broadcasting Stations around the state. Contact the educational and community outreach department at your local PBS outlet.

The State Library owns most of the videos from the *Reading Rainbow* series. While these are not included in the film and video listing in this manual, libraries are encouraged to use these in their programming as appropriate. Please contact the Statewide Audio Visual Service to obtain a current list of *Reading Rainbow* titles in our collection and to arrange for booking for your library.

READ*WRITE*NOW! - Read*Write*Now! is a national, grassroots literacy initiative designed to improve the reading and writing skills of America's children. Developed by the U.S. Department of Education and the Partnership for Family Involvement in Education, it reached an estimated one million children nationwide during the summer of 1996. Secretary of Education Richard Riley has collaborated with American Library Association president Mary Somerville to introduce the program in libraries across the country.

Librarians around the U.S. have been sending in suggestions for making the kits that are an integral part of the program more useful. One suggestion was to mail the kits out earlier for the summer of 1998. In response, the U.S. Department of Education will be producing them earlier. Look for these kits sometime in the spring. You can anticipate that each library outlet will receive 40 copies of the free Read*Write*Now! basic kit. Since the goals of this national program so closely align with that of the Florida Library Youth Program, we urge you to explore ways that you can integrate this literacy program into your ongoing FLYP activities. For more information or if you have questions about the Read*Write*Now! program, please contact *susan_thompson-hoffman@ed.gov* on the Internet.

PROJECT ADMINISTRATION - Administrative support for this Library Services and Technology Act grant funded program is again being provided by the Florida Library Association. Libraries who ordered program materials will be receiving them no later than March 1, 1998. If your local branch library has not received the materials by that date, check with your local Florida Library Youth Program coordinator (usually the children's coordinator or the system administrator). If your local Florida Library Youth Program coordinator needs to check on the status of your materials order, have them check with Mr. Phil Pyster, Florida Library Association, (407) 647-8839, FAX (407) 629-2502.

ACKNOWLEDGMENTS

We would like to thank the following for their contributions to this manual:

- Carole D. Fiore, Library Program Specialist, for her friendship, expertise, and patience.
- The 1998 FLYP Committee members for their hard work in developing the bulk of this manual. The members (and their respective chapters) are:
 - ◊ Sue Wright and staff, "Dinosaur Romp", Orange County Library District
 - ◊ Karen Evans, "Ancient Civilizations", Pearl Public Library, Broward County Division of Libraries
 - ◊ Ann Cook, "Castle Days and Knights", formerly of Winter Park Public Library
 - ◊ Cindy Birden, "Frontier Trails", West Florida Regional Library
 - ◊ Nancy Gear, "Human Body: Inside and Out", Volusia County Public Library
 - ◊ Karen Jensen, "Family Reunion,". Monroe County Public Library System
 - ◊ Valerie Lennox Mattair, "Florida Wonder," Jacksonville Public Libraries
 - ◊ Sarabeth Kalajian, "Nature Watch", Sarasota County Libraries Department
 - ◊ Carolann Abramoff, "Future Worlds", Pasco County Library System
- Rodd A. Newcomb, Youth Services Librarian at the Bureau of Braille and Talking Book Services, for providing braille, recorded book, and cassette book information for the master bibliography.
- Linda Shute for creating the art for this year's poster, bookmark, and repro masters.
- Mark Francis, Library Technical Assistant in the Audio Visual Department of the State Library of Florida, for researching and compiling the film and video suggestions for each chapter.
- Florida Advisory Council on Environmental Education for granting permission to use portions of the publication "Manatees: Florida's Gentle Giants" produced by the Northeast Florida Regional Planning Council and

the above agency. Game pages are located in the Florida Road Trip and Nature Watch sections.

- The Florida Library Association, which administers the federal LSTA grant that makes the manual, graphics, and workshops possible.
- Dr. Arlita Hallam, Library Director, Clearwater Public Library System, for her interest and enthusiasm.
- Carolyn Moore, Public Services Manager, Clearwater Public Library System, for her constant support of our efforts.
- Matt Moore, East Library Manager, for his patience and understanding.
- The Clearwater Public Library Teen Volunteers: Sasa Zdjelar, Shakeena Davis, Daniel Holm, Adam Eiseman, and Sean Morgan, for their cheerful assistance in helping to collate, alphabetize, and finish various and sundry tasks that were given them.
- Roger and Joseph Shinholser for their creative game sheets.
- Clearwater High School artists Telly Konstantantinidis, Kristin Cullen, Katherin Blair, and Jeremy Robinson for selected clip art. A very special thank you to Mrs. Mina Wolf, their art teacher for her keen eye and excellent suggestions.
- Angela Gates from Everything Educational for the fabulous displays.
- Chris Lofback, Clearwater Public Library Webmaster, for his patient tutoring.
- Michael Mitchell, for his love, support, and creative spirit!
- Marsha McGrath, Youth Services Manager, and Jennifer Davis, Youth Services Librarian, Clearwater Public Library System, for their unbounded enthusiasm, inestimable patience in times of stress, and unexcelled advice and knowledge. Without their invaluable assistance, this manual would not have been possible.

USING THIS MANUAL

Greetings! The 1998 Florida Library Youth Program Manual theme -- Exploration Explosion -- is historically divided up into three time periods with chapters representing different ages, as well as subjects that lend themselves well to the general concept of exploration:

THE PAST

Explorasaurus

Fizz, Sizzle and Pop into Ancient Civilizations

Castle Days and Knights

Frontier Trails

THE PRESENT

The Inside Story: Human Body

Family Reunion

Florida Road Trip

Nature Watch

THE FUTURE

Future Worlds

Each of these sections is divided up into six areas. The areas have exploration-related titles and are intended to group together a variety of reading-related options for each chapter. Read on for an explanation of each area:

Explorations - This area contains stories for younger children, read-alouds for beginning readers and other listeners as well as novels for older children and teens. Historical fiction seems to be more concentrated in the upper age range and you will find more older fiction in some sections. Please take this as an opportunity to involve adolescents/teens in your library program. Displays and book discussion clubs are just two of many ideas to incorporate older age programming into your library. Presentation suggestions will follow many of the entries. Please regard these suggestions as a starter into the many ways that each story can be told. Sometimes, it is better to tell a picture book. One reason for this is that the illustrations are either too small or too finely detailed to enjoy from a distance. The following symbols represent the following:

J - Younger children (pre-school - 2nd Grade)

I - Intermediate (2nd - 4th Grade)

Y - Older children, young adolescents, and teens (4th Grade and higher)

Remember that it is required by copyright law that the copyright holder's (usually the author or illustrator) permission be obtained before any part of a work is duplicated. Whenever a print is created that might involve duplication

from the book's illustrations, it is the individual librarian's responsibility to obtain this permission. Make your request to an author via his or her publisher. Many authors grant permission automatically if a library is making the request. Please consult *Books in Print* or *Something About the Author* for addresses and/or agent representation. For more complete information about copyright, see the 1997 Florida Library Youth Program Manual.

Discoveries - This area incorporates informational and display titles. Children can "discover" themselves, their world, and the past through these listings. Some books contain good follow-up activities for a special program. These activities can include scientific investigations, visual tricks or manipulations, or discussion starters.

Findings - As in any part of an exploration, we can "find" some wonderful surprises. This area contains poetry, jokes, and riddles to enhance any presentation.

Endeavors - While exploring the ages, add activities from this area to enrich each library presentation. Crafts, participation stories, plays, creative dramatics, CD-ROMs, as well as some display ideas are included with suggestions for use. This is a good time to tell you again of the importance of youth participation. The sub-themes this year lend themselves well to older children. History coming alive may attract more of this age group into your library. Adolescents and teens can be one of the best sources of program assistance. They are willing to make crafts and prepare for programs. They might even be willing to be a part of the program, providing that the participation level is fairly short, and not of the "homework" variety. If you already enlist the aid of teen volunteers, try to incorporate them more into the programming aspect of your youth program. You may find they have a natural affinity for programming, and would enjoy the summer a little more, having a "stake" in the outcome. For more information on incorporating teen volunteers into your program, see the 1996 Florida Library Youth Planning Manual.

Journeys - This area contains songs and songbooks, records (yes, there are those of us who still use them!), audiocassettes, and music CDs. *Warning!* Some sections of the manual have very little musical selections. Please feel free to search and discover some hidden gems that may work with the appropriate area.

Expeditions - You will find World Wide Web (WWW) page addresses as well as **community and professional resources**. This area will also provide any other additional ideas that would work well for the chapter, from organizations that will provide a program in the library to magazines articles to professional books that contain a myriad of ideas relating to the topics. If your library does not have Internet capability, the WWW sites can be posted as part of a display. If your library does have Internet access, encourage older youth who are comfortable using the Internet to search for fun and interesting sites related to the theme and sub-themes and provide a list; or, even better, start a library web page related to the activities throughout the program dates. The WWW sites were active when this manual was published. However, due to the changing nature of the World Wide Web, please check the sites for current activity.

Exposures - Films and videos comprise this area, with titles that would work well for each section. All titles in this manual are from the State Library's Audio-Visual section. Remember to book early if you plan on borrowing any of these listings. The age designations include P (preschool); E (elementary school); I (intermediate/ middle school); J (junior high); H (high school); A (adult).

Work with your library director to promote FLYP throughout the entire library. Invite them to be a "time guide" for one of the programs - introducing a special guest; reading a story; welcoming the parents into the library. Develop a reading challenge where the director will do something if the children read so many hours or books.

Encourage all library staff to participate by wearing hats, buttons, etc. on program days. Those working the circulation desk may get a kick out of "dressing up," provided you can supply the materials.

Each thematic program can be enhanced through visual displays, not only of your young customer's arts and crafts or promotional materials, but also local organizations displaying related items, thus extending the feeling of each program.

This manual contains many historical books, both fiction and informational. However, please be aware that this is not a complete list by any means. Many books available in your own library would work well for a program presentation. Also bear in mind that while books that are out of print have been kept to a minimum, some books were kept in the manual due to the fact that

they were excellent sources of programming information. It is assumed that these titles are available in some library and you will have access to these, either in your own collection or through the use of interlibrary loan.

If you are looking for costume ideas, then check out *Jane Asher's Costume Book*. While the costumes themselves are not the easiest to make, they are certainly creative and have ideas for almost every section of this manual.

The following companies have catalogs full of "goodies" such as posters, bookmarks, incentives, decorations, puppets, clipart, and props that can be used throughout this manual. If you don't have a particular catalog, please write for a complimentary copy.

PUPPET SHOW EXPLORATION EXPLOSION

Characters:

Flyp (Florida panther)	Alligator puppet
Dewey (book worm)	Talking book puppet
Dinosaur puppet	Mummy puppet
Dragon puppet	Buffalo/Bison puppet
Antibody puppet (a colorful blob)	

Props:

Time machine (can be a tube, a box, or any object decorated to look like a time travel device)
Jungle plants & bone (either plastic or cardboard cutout of a bone)
Pyramids
Castle (can be side of a castle with brick covering one turret or a front of a castle with cardboard shape and bridge)
Covered wagon with cacti in front
Flashlight w/ red covering Smoke machine or baby powder
Large picnic basket Large foot with sandal
Palm trees Stack of books on their sides

Scene 1: (*Flyp enters from side of stage, looking for his assistant Dewey.*)

Flyp: Now where could he be? Dewey? Dewey! (*Dewey peeks out from a time machine that is on the side of the stage and looks around and sees Flyp.*)

Dewey: I'm right here Professor. Did you need something?

Flyp: What are you doing in there?

Dewey: Just some fine-tuning of the gyroscopical knobs.

Flyp: I see. (*Starts to walk away, but realizes what worm has said and quickly walks over and looks closely at the worm*) WHAT DO YOU MEAN YOU FINE-TUNED? You know you're not supposed to touch anything in MY machine!!!

Dewey: But . . . But . . . But . . . I was only trying to help!

Flyp: You're always trying to help AND your help keeps getting us into trouble!!

Dewey: I'm sorry. (*Starts to sniffle*)

Flyp: All right, let's see what you did. (*They walk into time machine. The audience begins to hear weird noises. Smoke then starts to bellow around the outside of the machine. The audience can hear Flyp and Dewey yelling for help. Machine slides off stage left.*)

Scene 2:

(*Opposite the time machine, on stage right, there are now jungle plants with a large bone in front. Time machine comes in with a loud thud. Flyp ventures out of machine with Dewey cowering too close behind.*)

Flyp: (*Looks around bumps into Dewey as she turns around*) Well, this is another fine mess you've gotten us into.

Dewey: This isn't the lab... where are we?

Flyp: I'm not sure... (*loud footsteps and then a distant roar is heard*)

Dewey: What's that noise?

Flyp: That sounds like a Seismosaurus from the Cretaceous period.

Dewey: A what? From the what?

Flyp: If you would read more in the 567.9 section of the library you would... (*Suddenly a Raptor appears on the opposite side of the stage.*)

Dewey: Excuse me, but there is something over there you might want to take a look at.

Flyp: (*She starts to turn as she is speaking*) Honestly Dewey - (*She is now face to face with the Raptor, which roars. Flyp and Dewey scream, run into the Time Machine and slam the door in Raptors face. The audience hears more noise. Smoke billows around the outside of the machine and the audience can hear yelling. Machine slides off stage.*)

Scene 3:

(*Opposite the time machine, on stage right, there are now several pyramids. Time machine comes in with a loud thud. Flyp sticks her head out.*)

Flyp: We escaped him by the skin of our teeth.

Dewey: (*Pushes Flyp out and follows.*) Speaking of teeth, we were almost between them! Whew! I can still smell his disgusting breath.

Flyp: I'm not sure it's him you smell ... (*Mummy appears from the opposite side of the stage shuffling and moaning.*) That mummy is very well preserved. I recently read a book called "How To Make a Mummy Talk" by...

Dewey: No time for booktalks... (*Mummy lunges towards them. They scream as they slam the door in the Mummy's face. Noises again and smoke bellowing around the outside of the machine. Audience can hear yelling. Machine slides off stage.*)

Scene 4:

(Opposite the time machine, on stage right, is a medieval castle. Time machine comes in with a loud thud. Flyp backs out from the Time Machine, with Dewey hanging onto him. Flyp looks around.)

Flyp: Glad we wrapped up that.

Dewey: *(groans)* Ooh that was bad, but I think things just got worse. *(Opposite side of the stage a roaring dragon appears.)* Pardon me, Flyp, aren't dragons only in Fairy Tales?

Flyp: Actually during medieval times they were an imaginary...

Dewey: No time for that now. Your imaginary dragon is after us! Run!! *(They yell as they run into their machine and slam the door in the dragon's face. Noises and smoke follow and the audience can hear Flyp and Dewey yelling for help. Machine slides off stage.)*

Scene 5:

(Opposite the time machine, on stage right, there is now a covered wagon with several cacti in front. Time machine comes in with a loud thud. They both fall out of the machine)

Dewey: I think we're out of the fire and into the frying pan! It's hot enough to fry an egg.

Flyp: Speaking of food, you see that wagon over there? The pioneers had to carry all their supplies in those wagons as they headed west.

Dewey: Well, I think we need to head somewhere else. Look over there! *(Bison charges towards them as they jump into the time machine. The audience sees the smoke around the outside of the machine and can hear Flyp and Dewey bumping into each other. Machine slides off stage.)*

Scene 6:

(Opposite the time machine, on stage right, there is red light glowing from behind the stage. Time machine comes in with a loud thud. They crawl out of their machine and stand up.)

Flyp: *(hears the sound of a heart thumping in the background)* How did we get here?

Dewey: *(Looks around)* Well, where's here?

Flyp: It seems we're inside a human body. We must be in the bloodstream, from the look of things.

Dewey: At least there's nothing I can see that looks dangerous.

Flyp: Unless you look over there.

Dewey: Where?

Flyp: See that big blob? If you had read your anatomy, you would know that it is called an antibody. They attack foreign intruders... *(Antibody moves towards puppets.)*

Dewey: Uh oh! Antibody, uncle body! I don't care whose body it is, let's get out of here! (*They run into machine. Smoke billows around the outside of the machine. Machine slides off stage.*)

Scene 7:

(*Opposite the time machine, on stage right, there is a large picnic basket. Time machine comes in with a loud thud. Flyp ventures out of machine with Dewey cowering too close behind.*)

Flyp: (*Looks around, bumps into Dewey as she turns around*) Speaking of aunts and uncles, from the look of things, I would say we are at a family gathering.

Dewey: Yeah, but whose family? Look at the size of that basket!

Flyp: Who cares about the basket? Look at that! (*A giant sandal steps onto the stage*)

Dewey: I don't want to be toe jam, let's scam! (*They race into the Time Machine as it slides off stage.*)

Scene 8:

(*Opposite the time machine, on stage right, there are several palm trees. Time machine comes in with a loud thud. Flyp and Dewey walk out together.*)

Flyp: (*Looks around.*) Ah, I think we are back to our original size.

Dewey: And it looks like the right time, too. But not the right place. Do you see what I see?

Flyp: I do believe that the animal over there is a Florida Crocodile, who, until recently was on the endangered list.

Dewey: (*Crocodile approaches too close*) We're going to be on the "endangered" list, if we stay.

Flyp: Haven't you read your Florida Almanac? I'm on the endangered list.

Dewey: But I'm not and I don't want to be. Let's go. (*They run after machine as it slides off stage.*)

Scene 9:

(*Opposite the time machine, on stage right, there is a pile of books with future years written on spine of books. Machine comes in with a loud thud. Flyp and Dewey walk out of the machine.*)

Flyp: I have no idea where we are.

Dewey: Looks like a library to me. And I should know - I'm a bookworm!

Flyp: Yes, but when are we? (*Talking book enters the stage*)

Book: The future, my friend. This is the future.

Dewey: Can you help us find our way back to the lab?

Flyp: (*To Dewey*) How would he know?

Book: Well, you can find the answer to all your questions in books. And I believe the answer you want is located here...

(Book walks off stage, comes back and gives a piece of paper to Flyp.)

Dewey: Thanks for the information! You certainly do have a “way with words!”
(Snickers.)

Book: Yes I do! Would you like to hear some? How about volatility, inexorable ...

Flyp: Excuse me! Book, we’ve explored the past, the present, and the now the future. Dewey, I think it’s “time” to go.

Dewey: Thank you, book. Maybe I’ll see you again. Perhaps we’ll “do lunch”
(Laughs)

Flyp: Not funny! Let’s go. With any luck, we can make it back in time for the library’s program on time travel! *(Says goodbye to book and audience. The audience begins to hear weird noises. Smoke then starts to billow around the outside of the machine. Machine slides off stage.)*

Book: Explore your past, present, and future at the library.

THE END

Program notes: One person could present the show. Just cut out the character of Dewey and use his dialogue as a monologue for Flyp. Of course, each scene would have be adapted so it makes sense.

Time machine - can be taped or Velcroed to side of stage. You could also attach it to a base and slide the base back and forth on the stage.

Props - the plants, castle, pyramids, books, wagon, trees, etc. can be taped or Velcroed to the opposite side of the stage from the time machine. Then when scene changes, all you have to do is pull one item off, and place the next one on.

EXPLORATION EXPLOSION

EXPLORASAURUS

THE STORY SO FAR . . .

Professor Flyp and her assistant, Dewey (the bookworm) were in the lab one day working on various experiments. Dewey had gone inside Flyp's Time Machine in the corner. He thought he would help out by fine tuning some of the gadgets, when Flyp saw him, she started to get upset at the number of times Dewey was always getting them in trouble. They went inside the contraption, but as soon as they stepped inside, the door slammed shut, and smoke engulfed the lab. Flyp and Dewey were stuck inside the time machine, with no signs of help from the outside. So they switched a few dials, turned a knob or two and waited to see what would happen. The machine began to hum, whirl, and spin, throwing the pair to the ground. Such as suddenly as it had begun, the action stopped. The scent of moist humid air surrounded the pair as they picked themselves up and looked around. Where were they? As Flyp and Dewey cautiously opened the time machine's door and began to look around at the lush, steamy jungle, they heard strange noises! What could it be? Dewey slipped around the tropical ferns in front of him to peek out in the direction of the ever-increasing noise. And what should he see? Great and small, short and tall, big and little dinosaurs of every size and description . . .

THE DEATH OF THE DINOSAUR

9026 Video Color 60 min. EIJH

This program explores one of the most exciting and hotly debated issues in science today: why the dinosaurs disappeared 65 million years ago. Several possibilities are considered, including the latest hypothesis that a giant asteroid struck the earth 65 million years ago and wiped out nature's colossuses. One thing is certain. With the demise of dinosaurs, tiny mammals were finally able to thrive, eventually to give rise some 62 million years later to man. (THE DINOSAURS) PBS VIDEO, 1992

EXPLORING DINOSAURS

4793 Video Color 18 min. EI

Dinosaurs have again captured the imagination and interest of people of all ages. This renewed fascination has been sparked by many recent revelations and discoveries resulting from people's attempts to understand and appreciate the magnificent dinosaurs. The old view of dinosaurs as huge, clumsy, and dim-witted creatures is being replaced by findings that draw a much different picture. Dinosaurs were one of the most successful animal groups to ever rule the earth. UNITED LEARNING, 1992

FLESH ON THE BONES

9023 Video Color 60 min. EIJH

This program follows the discoveries made by recent scientists about the nature of dinosaurs. This episode answers questions like: Were dinosaurs slow-moving or speedy? Were they hot-or-cold-blooded? How large were they? Did they eat plants or each other? How did they chew and digest? The answers come from ingenious research in the fields of biology, physiology, geology, and bio-mechanics. (THE DINOSAURS) PBS VIDEO, 1992

ANCIENT CIVILIZATIONS

ANCIENT CIVILZATIONS

Flyp and Dewey saw one of the dinosaurs eyeing them hungrily and quickly ran into the time machine, turned as many knobs as they could and as they smelled the bad dinosaur breath wafting around them, they closed their eyes and waited... Before you knew it, they were jostled and tossed about. Then everything stopped. Flyp and Dewey checked to make sure they were O.K. Then they opened the time machine door just a crack. They did, indeed, get out of the dinosaur's way, only to find themselves right in the middle of a pharaoh's palace. Oh, no! They had moved forward in time, but now they had Fizzed, Sizzled, and Popped into ANCIENT CIVILIZATIONS!

EXPLORATIONS (stories, read alouds, older fiction)

Chosen by Philo of Byzantium more than 2,000 years ago, these seven wonders represent the tremendous creativity of ancient civilizations. Only one remains today the Great Pyramid of Giza, the oldest wonder, built about 2560 B.C. The other six are the Hanging Gardens of Babylon, the Statue of Zeus at Olympia, the Temple of Artemis at Ephesus, the Mausoleum of Halicarnassus, the Colossus of Rhodes and the Pharos (lighthouse) at Alexandria. ANCIENT CIVILIZATIONS

STILL LIFE FOR WOODPECKER?

8593 Video Color 28 min. EIJHA

Long, long ago the animals and the birds had a meeting. It was decided to create human beings to help look after the land. Three woodpecker brothers, Yamakpah, Mukah, and Kopuhk were sent to earth to make sure that the humans could survive. So begins an ancient myth as told by the Ktunaxa people of the Kootenay region of the Interior Pacific Northwest. BULLFROG FILMS, 1992

We lived in Central America in what are now Mexico and Guatemala.

— — — — — — — — — —

Before Rome became a ruler of the Ancient world, we dominated much of Northern Europe.

— — — — — — — — — —

We built the great wall, which we believed to be a dragon turned to stone.

CASTLE DAYS AND KNIGHTS

CASTLE DAYS AND KNIGHTS

Flyp and Dewey were “mummified” at what had happened to them so far. They were amazed at all the neat things they had seen and actually experienced being a part of “living history”, but thought it was time to “wrap” things up and leave. So once again, they touched some dials inside the time machine, and SNAP, CRACKLE, POP, FIZZ - they had landed. When Flyp and Dewey ventured outside, they thought the forests were beautiful and serene, and they might have landed outside their lab, but no sooner had they walked a few steps away from the time machine’s door when a knight in full armor galloped past. A large fire-breathing dragon soon followed him! They knew they were not home, but were in the time of CASTLE DAYS AND KNIGHTS!

EXPLORATIONS (stories, read alouds, older fiction)

17 Kings and 42 Elephants. Margaret Mahy. (J)

Nonsense rhymes as the kings on their elephants meet animals along the way. Present this as a flannelboard or rope story.

FRONTIER TRAILS

FRONTIER TRAILS

Not wanting to be “poked” fun at, or even to feel the hot breath of a dragon on their necks, Flyp and Dewey quickly got back into the time machine, nudged and prodded a few dials and buttons, and WHOA! They jolted to a stop, and peeked outside to see if they were home. Nope, they were in the midst of what looked like a group of covered wagons. It dawned on both Dewey and Flyp that they had traded armor for buckskins - and were in the middle of heading towards the new west along FRONTIER TRAILS.

EXPOSURES (films and videos)

BLACK HEROES: FREEDOM FIGHTERS, COWBOYS AND MORE

8028 Video Color 22 min. EIJ

Not all heroes are famous. And not all Americans are aware that African Americans have a long and distinguished history of military service, from Crispus Attucks, first to die in the Boston Massacre of 1770, to Vietnam and beyond. Blacks also made great contributions in the settling of the American West, breaking new trails, conquering the wilderness, and founding towns and businesses. (FAMOUS BLACK AMERICANS) PROFESSIONAL MEDIA, 1992

THE BLACK WEST

5034 Video Color 28 min. JHA

FRONTIER TRAILS

Provides insights into the experience of the Afro-American cowboy and the settler families of the late 1800's and early 1900's through dramatic reenactments and personal narratives. (WERE YOU THERE?) BEACON FILMS, 1982

CADDIE WOODLAWN

4663 Film Color 104 min. EIJHA

4736 Video Color 104 min. EIJHA

From the Newbery Medal Book by Carol Ryrie Brink comes the classic story of spunky 11-year-old Caddie Woodlawn. Growing up on the Wisconsin frontier in the 1860's, Caddie would rather go adventuring with her brothers than learn to cook and sew. When a nasty misunderstanding develops between the Indians and the settlers, it's Caddie quick thinking and courage that averts a massacre. CHURCHILL FILMS, 1989

DANIEL BOONE

7577 Video Color 41 min. EI

This animated children's special traces the true story of the trailblazer, Daniel Boone. His prowess on the Kentucky frontier and his adoption by the Shawnee Indians add to the excitement. BARR FILMS,

DAVY CROCKETT

9637 Video Color 30 min. EIJ

Half-alligator and half-snapping turtle with a touch of earthquake thrown in, Davy Crockett is the ultimate backwoods American legend who, at the Alamo, literally brags himself into American history. Nicholas Cage's rip-roaring characterization of this frontier hero is perfectly matched by the rousing, knee-slapping music of David Bromberg. RABBIT EARS, 1992

FAT ALBERT: FOLK TALES

367 Film Color 15 min. PE

5204 Video Color 15 min. PE

When the gang's TV breaks, Bill Cosby invites them to listen to a story. Bill tells them the story of Paul Bunyan. When Bill tells Fat Albert and the gang that they can find all these stories in the library, off they run to check out their favorite adventure. BARR FILMS, 1985

FRONTIER TRAILS

HERITAGE OF THE BLACK WEST

11441 Video Color 25 min. EI

African Americans played a significant role in shaping the American West. As students visit with a modern-day cowboy and his family, we learn the story of black frontiersmen and women, and their relationship with Native Americans, and about popular folk heroes, including buffalo soldiers. One of the 1997 ALA Selected Videos for Young Adults. NATIONAL GEOGRAPHIC ED. SERV., 1995

THE LAST OF THE MOHICANS

8239 Video Color 45 min. EI

This animated version of Cooper's classic tale is set in the wilderness of New York State in 1757 during the French and Indian War. The story centers on the adventures of Hawkeye, a frontier scout, and his Mohican friends Chingachook and Uncas. They want to rid the forest of the evil Indian, Magua, and his renegades who are allied with the French. BARR FILMS, 1990

LIZA'S PIONEER DIARY

9122 Video Color 87 min. IJHA

A twenty-year-old Kentucky bride crosses the Great Plains with her young husband and his family in a wagon train, encountering the trials and tribulations of a cross-country journey. Set in 1848, this touching film captures the essence of pioneer days with warmth and compelling historical perspective. DIRECT CINEMA, 1976

PAUL BUNYAN

2313 Film Color 17 min. E

9422 Video Color 17 min. E

Here's the larger than life legend of the great lumberjack and Babe, the blue ox, who accidentally created Minnesota's 10,000 lakes, the Grand Tetons and Yellowstone Park. Paul and Babe become the greatest logging team in the West, until "progress" catches up with them. WALT DISNEY EDUCATIONAL MEDIA, 1970

PAUL BUNYAN

7642 Video Color 30 min. EIJ

No story captures the spirit of early America better than the saga of that tall tale hero Paul Bunyan and his blue ox, Babe. The hilariously exaggerated exploits of Paul's logging adventures in the northern United States represent the very best in American storytelling. AIMS MEDIA, 1990

FRONTIER TRAILS

PAUL BUNYAN: LUMBER CAMP TALES

2314 Film Color 11 min. E

This animated film recounts some of the most famous tall tales of the American folk-hero, Paul Bunyan. The bunkhouse with beds stacked 137 high, the gigantic flapjack griddle, the popcorn blizzard, the great blue ox, and others are presented. CORONET FILM & VIDEO, 1962

THE PONY EXPRESS

11345 Video Color 25 min. IJH

The Pony Express delivered mail from coast to coast for only 18 months. Yet during its brief glory days, it became a legend of the American frontier. This fascinating and well-researched video recounts the history of the Pony Express, retraces the famous trail and uncovers the reasons behind its demise and lasting legacy. Viewers learn how the Pony Express was created to meet the growing need for improved communication between the East Coast and the emigrants in the West. The story of how adventurous entrepreneurs launched the Pony Express is vividly retold through archival photographs and dramatic film. Additionally, accurate, modern-day reenactments allow viewers to follow the riders through the difficult trail--stopping at relay stations and stage stops along the way. Also explored are the special preparations BARR FILMS, 1995

READING RAINBOW #21: PAUL BUNYAN

9163 Video Color 28 min. PEI

Narrated by Buddy Ebsen, the incredible feats of one of America's best-loved tall tale heroes are delightfully recounted and illustrated. Host LeVar Burton joins Smokey the Bear for a trip to Maine, the legendary birthplace of Paul Bunyan. And a visit to a reforestation area shows how little seeds become big trees and demonstrates the importance of conservation. (READING RAINBOW) GPN, 1985

THE SONG OF SACAJAWEA

9443 Video Color 30 min. EIJ

Laura Dern tells this true story of a young Native American woman who courageously guides the Lewis and Clark expedition across the Rocky Mountains to the Pacific Ocean. Acclaimed string instrumentalist David Lindley captures the essence of the new frontier in his rich and moving score. One of the 1994 ALA Selected films for Children. RABBIT EARS, 1992

FRONTIER TRAILS

STORIES OF NORTH AMERICA: PART 2

11457 Video Color 30 min. EI

Stories can entertain, inform, and open whole new worlds of thought. This video contains five lively stories performed by professional storytellers. The stories come from traditions and culture that are distinctly American. "Paul Bunyan" is a classic American tall tale...in more ways than one. "Put Your Money Where Your Mouth Is" comes from the oral tradition of lying, or telling "whoppers". "The Earth on Turtle's Back" and "Race With the Buffalo" come from the Native American folk hero -- a man who may have been real! After each story, the storyteller provides background information about the stories and about different forms of storytelling. NATIONAL GEOGRAPHIC ED. SERV., 1994

**THE INSIDE STORY: THE
HUMAN BODY**

INSIDE STORY

As Flyp and Dewey enjoyed the company of the prairie pioneers, they heard a distant rumbling turn quickly into the terrifying roar of a buffalo stampede drawing closer and closer. They knew it was time to part company with these brave explorers. They raced into the time machine, switched a few knobs, flicked a few dials on a control panel and ... THUMP THUMP - THUMP, THUMP, ... The crimson hues around them pulsated loudly. They didn't know where exactly they were, so Flyp slid open the viewing panel to look and see what was making the gigantic noise emanating throughout the machine. What Flyp saw was so amazing; she could hardly believe it to be true. They seemed to have traveled forward and shrunk down in size to be able to enter a human body. Dewey suggested it was time to get to know THE INSIDE STORY.

EXPLORATIONS (stories, read alouds, older fiction)

"The Birthmark" (I)

In *Highlights for Children*, volume 52, number 545, March 1997, pages 8-9. Jenny's get teased about her birthmark, until something special happens.

A wordless picture book that depicts how a yawn is passed from a baby to a number of different people. Read aloud.

Little Bear Sleeping. Tony Johnston. (J)

A yawning bear tries to convince his mother that it isn't time for bed. Read aloud or flannelboard.

Monster's Birthday Hiccups. Virginia Mueller. (J)

Nothing helps monster get rid of his hiccups on his birthday. Read aloud.

Mother, Mother, I Feel Sick. Send for the Doctor Quick, Quick, Quick. Remy Charlip and Supree Burton. (J)

A boy swallows all sorts of things and the doctor is sent to extract them. Read aloud or use as a shadow puppet show.

My Rotten Redheaded Older Brother. Patricia Polacco. (I)

Story of Patricia's older brother who runs, throws, spits, and even burps better than her. Read aloud.

One Day in the Jungle. (Giggle Club Series) Colin West. (J)

Different animals, from smallest to largest, sneeze.

INSIDE STORY

Our Ollie. Jan Ormerod. (J)

Story of Ollie who sleeps like a cat, yawns like a hippo, and hugs like a bear. Use animal puppets to make comparisons.

Parts. Tedd Arnold. (J)

A boy thinks his body is falling apart until he learns new teeth and hair and skin replace themselves.

"Stand Back," Said the Elephant, "I'm Going to Sneeze!" Patricia Thomas. (J)

All the animals try to prevent Elephant from sneezing,

The Yawn Goes On. Sally G. Ward. (J)

A yawn is passed from one to another.

Zebra's Hiccups. David McKee. (I)

When Zebra gets the hiccups, all of his animal friends suggest a variety of cures. Would make a humorous puppet show.

DISCOVERIES (informational books)

FAMILY REUNION

FAMILY REUNION

As our time travelers flowed along the blood stream, they saw some strange blobs moving closer to the time machine. Flyp and Dewey thought these cells looked pretty menacing, so they hurriedly stabbed a few keys and jostled some papers, and soon they were slipping and sliding out of the human body into a park with families picnicking in the distance. Flyp and Dewey were so happy to be here, they skipped out of the time machine, and ran to join the nearest family gathering. But it was not just any picnic - it was a FAMILY REUNION.

LOOK AROUND YOU IN THE EVERGLADES

65 Film Color 19 min. G

The Everglades, lying in the southern part of Florida, is a unique area. It is a vast open expanse of sawgrass--often called "a river of grass" since water flows southward through the sawgrass to the sea. Wildlife retreats to the deeper waters of the sloughs, and we may find many animals living there: the otter, the anhinga, many kinds of herons and the alligator. MAR/CHUCK FILM INDUSTRIES,

NOVA: PRIVATE LIVES OF DOLPHINS

READING RAINBOW #38: CHICKENS AREN'T THE ONLY ONES

8984 Video Color 28 min. PEI

Which came first, the chicken or the egg? Inspired by the feature book *Chickens Aren't the Only Ones*, narrated by Georgia Engel, host LeVar Burton searches for the answer. Assuming the role of reporter, LeVar visits a chicken farm and provides viewers with "eggsclusive" information about how baby chicks are kept safe until their final moment of hatching. LeVar also travels to the beaches of Melbourne, Florida, where he discovers majestic loggerhead turtles emerging from the ocean to lay and bury their eggs in the sand. (READING RAINBOW) GPN, 1987

READING RAINBOW #61: DIVE TO THE CORAL REEFS

9176 Video Color 28 min. PEI

Dive to the Coral Reefs explores the strange and beautiful world that lies beneath the surface of the sea, the living coral reef. Inspired by this remarkable book, host LeVar Burton scuba dives in the coral reefs off the Florida Keys where he encounters tropical fish and a variety of fascinating coral. Viewers will also meet a "reef doctor" who restores life to damaged reefs by transplanting living coral. (READING RAINBOW) GPN, 1989

WHERE THE HERON FINDS ITS HOME

12516 Video Color 46 min. IJH

North America's elegant Great Blue Heron is being discovered by biologists to be a remarkably sensitive indicator of the state of our wetlands. If herons are abundant the wetland they inhabit form a healthy ecosystem. In the Florida Everglades, however, agriculture has invaded the wetlands and siphoned off its life-giving water, causing the population of great blue herons and other wading birds to decline by up to 90%. On Vancouver Island a colony of Great Blues failed to raise chicks for two years because dioxins in the effluent from a pulp mill had contaminated their feeding grounds. When the mill was cleaned up, the colony once again flourished. In healthy nesting colonies as many as 400 adult and 1,000 young can create a noisy and spectacular crowd. BULLFROG FILMS, 1995

EXTINCTION

8312 Video Color 30 min. IJH

Every year 4,000-6,000 species of plant and animal life on Earth become extinct. This extinction rate, which is much greater than one would expect under normal evolutionary conditions, is largely due to the behavior of one species -- human beings. Former MTV host Kevin Seal joins a group of young researchers at a fossil dig as they discuss the phenomenon of extinction and what humans can do to protect the diversity of life on our planet. 50 SIMPLE THINGS KIDS CAN DO TO SAVE THE EARTH

7804 Video Color 47 min. PEI

It's not hard to understand that we need to save our earth. The hard part is to get involved. In West Palm Beach, Florida, a young boy is helping to save the gentle manatee. In Ocean City, Maryland, elementary school students are cleaning up and restocking a local stream turned unofficial garbage dump. Kids everywhere are learning that they can be part of the solution, not the problem. CHURCHILL FILMS, 1992

FLORIDA'S KEY DEER

11793 Video Color 30 min. G

Often referred to as "toy" deer, these tiny residents of the Southern Florida Keys are on Florida's endangered species list. This video will show you what is being done to insure the survival of the Key Deer. We tour a refuge on Big Pine Key and find out how these 3-foot tall creatures co-exist with the human residents and the increasing flow of tourists. FILM IDEAS, 1990

HOW TO SAVE THE EARTH PART 1: TAKING THE WATERS

10393 Video Color 26 min. JHA

There is often a conflict between preserving important wetlands and utilizing water for human needs. The Danube basin is currently the focus of a major campaign to stop the construction of dams that will destroy important wetland sites and endanger the water supply. In Tunisia, an important bird migration and nesting lake is imperiled by similar plans. TAKING THE WATERS looks at the people who are fighting to turn each area into a national park. HOW TO SAVE THE EARTH PART 2: THE MONK, THE TREES AND THE CONCRETE JUNGLE

10394 Video Color 26 min. JHA

Focusing on Southeast Asia, this program looks at what is being done in Thailand to stop deforestation and the trade in endangered species. We also visit Japan, a major consumer of tropical hardwood, and see how action is being taken to change people's attitudes and influence government policy on the consumption and acquisition of tropical wood. The green warriors in this program are Phra Ajaan Pongsak, a Buddhist monk turned environmentalist and Joichi Kuroda, the leader of the Japanese Tropical Forest Action Network. HOW TO SAVE THE EARTH PART 4: HANDLE WITH CARE

10396 Video Color 26 min. JHA

Many indigenous cultures respect nature and live sustainably without destroying the natural resources on which all life depends. But industrial development is often growth at any cost, frequently damaging our environment and endangering public health. This program focuses on two people who are fighting back and motivating others to become green warriors themselves: Jorunn Eikjok, a Norwegian woman and member of the Sami reindeer herders in the Arctic Circle, and Lois Gibbs, an

NORTHWEST WILD: RED WOLF

9960 Video Color 13 min. JHA

By the early 1970s, the native red wolf had neared extinction in this country. Recently, a program of rescue, captive breeding and relocation has begun to show positive results in bringing the red wolf population back to safety. How and why this was done affects the future of programs to reintroduce endangered predators throughout the country. This video illustrates the role of the predator in the balance of nature, as well as the changing historical relationship between man and predator. (NORTHWEST WILD) CHURCHILL FILMS, 1991

FUTURE WORLDS

Flyp and Dewey never thought they would learn so much about the environment in their nature watch! But they both dreamed of the time when they could go home. So the panther and the worm trekked back into their time machine, typed in a few program lines on the keyboard and PRESTO - CHANGE! They were in a large building filled with books! Were they home? Flyp glanced around as she walked out with Dewey close behind. They looked at some of the titles on the spines of the books. "2050," "1999," "2179," - this was certainly strange! Where could they be? Dewey knew it HAD to be a library (he is a bookworm), but when? Just then a book approached them and welcomed the two into the realms of imagination and wonder - FUTURE WORLDS.

Sidewalk Chalk I

$\frac{3}{4}$ cup warm water

Toilet tissue tubes

$1\frac{1}{2}$ cups Plaster of Paris

2-3 tablespoons Powdered Tempera Paints

Container for mixing

Cover one end of tissue tubes with duct tape. Place a loosely rolled piece of wax paper into the tube to create a liner to keep the plaster from sticking to the tube. Pour water into mixing container, and then sprinkle plaster, a little at a time, into the water until plaster no longer dissolves (approximately $1\frac{1}{2}$ cups). Stir thoroughly. Mix in 2-3 tablespoons tempera paint. Place tubes sealed end down on a flat surface. Pour plaster mix in. Tap side of tube to release air bubbles. Let dry 1-2 days, pull off mold and have fun drawing!
